

Quick-Start Guide

Become an Asset Recovery Agent

How it works, in plain language. Your job is simple: get the agreement signed. We do the rest.

Foreclosure Recovery Inc.
Asset Recovery Administration Specialists

1 Your One Job

You are a relationship manager. You talk to people, build trust, and get the contingency agreement signed. That is it.

Everything else is on us. You never touch the hard paperwork.

YOU DO

Reach the homeowner. Build trust. Get the contingency agreement signed. Follow up.

WE DO

All the paperwork. Attorneys. Notary and online e-sign. Filing with the state. Deed history search. Collecting and splitting the checks. We mail you yours.

Same contingency agreement in every state. Your part does not change from one state to the next.

2 How You Get Paid

We take 30% of the recovered overage. That 30% is split with you, 50/50. The homeowner keeps the rest.

**Claimant keeps
70%**

**You
15%**

**Company
15%**

\$

EXAMPLE: a \$25,000 overage

Company fee (30%) = **\$7,500**. Split 50/50 → **you get \$3,750**, company gets \$3,750. The homeowner keeps **\$17,500**. Many properties hold \$10,000 to \$45,000 or more.

You get up to **125 leads a week**. A first batch often holds over **\$1,000,000** in total claims. No money is asked of the homeowner up front, and we do not get paid until they get paid.

3

Getting Started

Start as an asset recovery agent for a one-time fee. No monthly fee.

\$995

One time, all at once.

or 3 x \$331

Three easy payments. Start after the first.

Then you work from your **My Leads** dashboard. Pick a claimant and tap a button:

SMS

Text the homeowner.

EMAIL

Auto-filled draft.

VOICE DROP

Ringless voicemail.

The email writes itself

The draft already has your 800 number and extension, your business email (yourname@usforeclosurerecovery.com), the homeowner's name, the estimated overage, and the contingency agreement attached. You review it and hit send.

Leads show a calling window in the homeowner's time zone. The buttons only turn on when it is okay to reach out, so you stay compliant.

4 Be Seen, Close More

In this business most people only ever get a text or an email. They never see a real person, so they do not trust it. We fix that.

Your own web page + AI avatar (optional)

Upload three photos and record your voice for about a minute. We build you a personal page at usforeclosurerecovery.com/yourname and a short AI avatar introduction.

They see YOU in the text

Your SMS shows your photo with a play button. The homeowner taps it and lands on your page that introduces you as their asset recovery agent. A real face builds a real relationship, and conversion goes way up.

A clone of your voice sends ringless voicemail drips and next-day follow-ups automatically, each one personalized with the homeowner's name. The work keeps going while you are busy.

5 The Incentives

You hand the homeowner a complimentary incentive when they sign. They pick one of three. It costs them nothing.

Las Vegas trip

2 nights, 3 days.
Complimentary.

\$1,000 grocery savings

Real savings on groceries.

\$1,000 restaurant savings

Real savings on dining.

Use a deadline to close faster

In your email, try: "Sign the contingency agreement within 24 hours and we will get you the complimentary Vegas trip." A reason to act now moves people off the fence.

Incentives have lifted signed agreements by about **50%**, with closing rates as high as **70%**. They are incentives, not gifts — we can give them because we own Sales Incentive Network.

6 The 5-Day Lock-In

Once the agreement is signed, upload a photo of it to your My Account tab. That starts a 5-day countdown.

Day 1	Day 2	Day 3	Day 4	Day 5	LOCKED IN
-------	-------	-------	-------	-------	-----------

Homeowners have a 5-day right of rescission — they can change their mind in that window, and that is their right. When the 5 days pass, the deal is locked and we send their incentive. Then we do everything else.

About a **90% recovery rate**. Before payout we run a 20-year deed history search, so we know every party who could have a claim. Then attorneys file, checks are split, and yours is mailed to you.

7 Get Set Up

A light setup wires the automations to your dashboard:

- ✓ A cheap Android phone (about \$50) running the **TextBee** app (textbee.dev), wired to your dashboard for SMS.
- ✓ A **SlyBroadcast** account with \$10 in it — that lasts months and powers your voicemail drips.
- ✓ Your 800 number and extension forward straight to your own cell phone.
- ✓ About 2 to 3 hours a day, a couple days a week. Many agents do this around a full-time job.
