WELCOME & ORIENTATION

How to Use This Playbook

This is the field manual behind the Sales Incentive Network. Everything in here exists for one reason: to help you turn interested prospects into paying customers, and to help the businesses you serve do exactly the same thing. It is part strategy guide, part swipe file, and part operating system — written so you can read it cover to cover or flip straight to the page you need on a sales call.

Most of what holds people back in sales isn't the offer. It's the moment right before someone says yes — the hesitation, the “let me think about it,” the cart that never gets checked out. The whole idea behind incentives is to give that hesitant person one more honest reason to act today instead of someday. When you do that well, conversion stops being a guessing game.

THE THREE WAYS TO READ THIS

- 1. Learn the model.** Parts I–II explain why incentives convert and how the entire business is structured — what you sell, how money flows, and who buys.
- 2. Grab and deploy.** Every blue-header box in this book is copy-paste ready. Posts, DMs, emails, texts, and voicemail scripts are written to be used as-is or lightly personalized.
- 3. Run the system.** Part V and the appendices give you the daily operating rhythm, objection answers, and a seven-day launch plan.

A note on the numbers and claims

Throughout this guide you'll see figures the network has reported — close rates as high as 85%, conversion lifts up to 70%, and example commissions. Treat these as illustrative results and ceilings, not guarantees. Your results depend on your effort, your market, and how truthfully and skillfully you present the offer. The fastest way to lose a client is to over-promise. The fastest way to keep one for years is to set honest expectations and then help them win. Appendix B covers responsible claims in detail — please read it.

You don't have a traffic problem. You have a closing problem — and a closing problem is the most profitable problem to solve.

THE CORE PREMISE

Part One

The Incentive Advantage

Why a well-placed bonus moves people across the finish line — the psychology, the proof, and the markets where it works best.

SECTION 1

The Idea That Closes Deals

Adding the right incentive to an offer is one of the most reliable conversion tools available to a small business. It is the difference between a prospect who is “very interested” and a prospect who has paid. Agents in the network report closing as many as **85% of their deals and upsells** once an incentive is part of the conversation — because the incentive gives people an extra reason to take action *now* instead of waiting, drifting, or hesitating.

The reason it works is almost embarrassingly simple. The incentives are built around things people already spend money on and already dream about:

100% OF PEOPLE BUY GROCERIES	93% OF HOUSEHOLDS EAT OUT MONTHLY	#1 VACATIONS TOP THE WISH LIST
---	--	---

When you attach value people *already* want to an offer they’re *already* considering, three things happen at once: excitement goes up, the perceived value of the whole package goes up, and the natural friction of paying goes down. You haven’t discounted your product. You’ve made saying yes feel like the obvious, rewarding choice.

The four levers an incentive pulls

LEVER 01

Urgency

“Take action today and the bonus is yours” converts a someday decision into a today decision. Hesitation is where deals quietly die.

LEVER 02

Reciprocity

People feel the pull to respond to generosity. Offering something extra makes the buyer want to meet you halfway.

LEVER 03**Perceived Value**

A \$1,000 dining card or a vacation incentive makes the total offer feel bigger than its price — without cutting into your margin.

LEVER 04**Loss Aversion**

Once a buyer pictures the bonus as theirs, walking away feels like losing something. That tips the scale toward yes.

Who this works for

Because the levers are human rather than industry-specific, the incentive strategy travels well. It has been used effectively across:

- Surplus and asset-recovery businesses
- Foreclosure and real-estate investors
- Coaches and consultants
- Digital marketers and course creators
- Realtors and mortgage professionals
- Service businesses and contractors
- Affiliate marketers
- Nonprofits and fundraisers
- Local brick-and-mortar businesses
- High-ticket and subscription offers

FIELD-PROVEN USE CASE

One of the most powerful applications has been helping surplus and foreclosure professionals get **contingency agreements signed**. When an incentive is part of the offer, it builds excitement, increases trust, and gives a hesitant homeowner the nudge to move forward with confidence — turning “I’ll think about it” into a signature.

If you want a single sentence to remember the whole section by, it’s this: *an incentive doesn’t change what you sell — it changes how quickly people decide to buy it.*

Part Two

II The Complete Business System

The full build — what you sell, who you sell to, and the exact outreach and landing page that turn the model into revenue.

SECTION 2 · THE OFFER & THE MONEY

What You Sell and How You Profit

The core offer

You are not selling certificates. You are selling a **conversion system** — a way for a business to close more of the deals it's already working. The certificates are the mechanism; “close more deals” is the product. That single reframe is what lets you charge for a tool instead of giving away a bonus.

THE INCENTIVE MENU

\$1,000**Grocery Savings**

Everyday value on something every household already buys.

\$1,000**Dining Savings**

Restaurant savings that make eating out feel rewarded.

3D / 2N**Las Vegas Vacation Incentive**

No timeshares. No presentations. Just a relaxing trip.

Optional add-ons — voice-drop campaigns, chatbots, and follow-up automation — can be bundled to raise the average deal size and stickiness of each client.

THE COMPOUNDING PART

The real money isn't the first order — it's the **reorder**. Every promotion, every campaign, and every new month a client runs is another order. Land a client once; earn from them repeatedly.

SECTION 2 · MARKETS & POSITIONING

Who to Sell To — and How to Frame It

Target markets

PRIMARY · HIGHEST INTENT

- Coaches with high-ticket offers
- Course creators & digital marketers
- Credit-repair & funding services
- Real-estate & foreclosure investors
- Business-opportunity sellers

SECONDARY · STRONG FIT

- Gyms & fitness trainers
- Med spas & cosmetic clinics
- Car dealerships
- Insurance agents
- Fundraisers & nonprofits

Rule of thumb: if a business sells anything where a prospect can hesitate at the moment of payment, it's a fit. The bigger the ticket and the longer the sales conversation, the more an incentive earns its keep.

Positioning — the single most important reframe

You are not selling incentives. You are selling a system that increases conversions and closes deals faster.

POSITIONING STATEMENT

Everything you say should ladder up to that. A business owner doesn't lie awake wanting "a grocery certificate." They lie awake wanting more closed deals, more revenue, and fewer prospects who ghost them after a great call. Sell the outcome; deliver it with the certificates.

FINAL POSITIONING LINE — MEMORIZE THIS

"We help coaches, marketers, and businesses close more deals by adding strategic incentives that create urgency and drive immediate action."

SECTION 2 · THE OUTREACH SYSTEM

Three Ways to Start the Conversation

You don't need a marketing degree to open a conversation — you need a sharp first line that names the prospect's real pain. Here are three field-tested openers. Each blue box is copy-paste ready.

CHANNEL 1 · FACEBOOK / GROUP POST

COPY & PASTE

If you're going live, getting engagement, but people aren't paying... you don't have a traffic problem — you have a closing problem.

I started using a simple incentive strategy that creates urgency and gets people to actually follow through. Coaches and digital marketers are using this right now to close more deals without being pushy.

If you want to see how it works, comment "INFO" or message me.

CHANNEL 2 · COLD DM (TWO MESSAGES)

COPY & PASTE

MESSAGE 1

Quick question — when you go live or present your offer, do you ever get people interested but they hesitate to pay?

MESSAGE 2 · AFTER THEY REPLY

That's exactly what I help fix. We use a simple incentive system that creates urgency and gets people to take action right away. It's working really well for coaches and digital marketers right now. Want me to show you how it works?

CHANNEL 3 · EMAIL PITCH

COPY & PASTE

SUBJECT LINE

You're losing deals at the last step

Most people don't lose deals because of a bad offer — they lose them because there's no urgency. We help businesses fix that instantly using strategic incentives that get people to say YES now.

If you want to see how to apply this to your business, reply to this email or visit SalesIncentiveNetwork.com.

WHY THESE WORK

Each opener leads with the prospect's pain ("people hesitate to pay"), not your product. You earn the right to pitch by naming the problem better than they can — then you offer the fix.

SECTION 2 · CONVERT & CAPTURE

The Landing Page That Converts

Landing-page structure

One page, five sections, one job — turn a curious visitor into a started conversation. Build it in this order:

1**Headline**

"Close More Deals Without More Leads."

2**The Problem**

You're getting engagement — but not conversions.

3**The Solution**

Add high-value incentives, create urgency, increase closes.

4**What You Get**

Vacation incentives, grocery savings, dining savings, plus the conversion strategy.

5**Call to Action**

Go to SalesIncentiveNetwork.com or DM to get started.

THE POWER CLOSE

Your edge is that you solve the "they didn't pay" problem. That is worth more to a business than more leads, more ads, or more content — because it turns the traffic they **already have** into revenue.

SECTION 3 · THE RECRUITING TOOL

The Sales-Rep Pitch Deck

This is the 14-slide deck you present to recruit new reps or pitch a business. Drop it into PowerPoint or Google Slides — dark-blue background, gold accents, clean fonts — or export it as a PDF and send it ahead of a call. Each card below is one slide.

SLIDE 01 · COVER

Close More Deals. Make More Money. Faster.

Sales Incentive Network Opportunity ·

SalesIncentiveNetwork.com

SLIDE 02 · THE OPPORTUNITY

There's a huge problem in sales right now

Businesses get leads and engagement — but they're **not closing**. Hesitation at payment = lost money.

SLIDE 03 · THE SOLUTION

We fix that instantly

High-converting incentives that create urgency, increase conversions, and get people to say **yes faster**.

SLIDE 04 · WHAT WE SELL

Vacations & savings that close deals

Incentive vacations, \$1,000 grocery, \$1,000 dining — used to close deals and run promotions.

SLIDE 05 · WHY IT'S EASY TO SELL

You sell a result, not a product

"We help you close more deals." Every business wants more customers and faster sales.

SLIDE 06 · YOUR CUSTOMERS

If they sell anything, they need this

Coaches, marketers, course creators, real estate, credit repair, gyms, med spas, dealerships.

SLIDE 07 · HOW YOU EARN

\$10 per vacation · \$5 per grocery/dining

20 certs = **\$200** · 100 = **\$1,000** · 300 = **\$3,000**. One client can be thousands.

SLIDE 08 · WHY THEY BUY FAST

It solves their biggest pain

"People don't follow through." When they hear this closes deals immediately, they listen.

SLIDE 09 · THE SCRIPT

Open with a question

"When you present your offer, do people ever hesitate to pay?" Then position the fix.

SLIDE 10 · CLOSE THE DEAL

Start small or go bigger?

"Most businesses start with 20–50 to test it. Want to start small or go bigger?"

SLIDE 11 · WHY IT'S A WIN

Everybody wins

Client: more conversions & revenue. **You: high commissions, fast deals, repeat clients.**

SLIDE 12 · SCALE

This isn't one-time

Clients reorder every campaign and every month. You build **recurring income.**

SLIDE 13 · FINAL MESSAGE

A tool businesses need

Not “nice to have.” It directly impacts revenue.

SECTION 4 · THE OPERATING SYSTEM

The Plug-and-Play Daily System

A business runs on rhythm, not heroics. This is the simple operating loop that keeps deals, reps, and reorders moving — whether you're a solo agent or running a team.

The control dashboard

Track everything in one spreadsheet, every day: deals, reps, revenue, and commissions. The rule is blunt and worth tattooing on the wall:

If it's not tracked, it doesn't exist.

The Words That Sell

The master narrative, the affiliate opportunity, and every ready-to-run promotion — written to sound like a human, not a billboard.

SECTION 5 · THE MASTER MARKETING SCRIPT

The Story That Opens Doors

This is the long-form script for a webinar, a live video, a VSL, or a one-to-one walkthrough. It works because it doesn't open with a product — it opens with a problem everyone in the room recognizes. Read it warm and conversational. Pause where you'd naturally pause.

FULL PRESENTATION SCRIPT

COPY & PASTE

Over the last few years, I became involved in the digital-marketing industry and started working with different marketing and coaching companies. As I connected with more marketers, coaches, and online business owners, I noticed something very interesting.

Most of these companies were teaching similar strategies and marketing in many of the same ways. But there was one major problem almost everyone seemed to struggle with... **closing the sale.**

I kept seeing the same pattern. People would get prospects interested — on live videos, webinars, Zoom calls, presentations. The excitement was there. But when it came time for payment or the final decision, many prospects would hesitate.

That's when I realized there was a huge missing piece. I saw an opportunity to help businesses increase conversions and close more sales by adding high-value incentives that people genuinely get excited about receiving.

That's where our incentive programs come in. Businesses can now offer incentives such as a **\$1,000 Grocery Savings** incentive, a **\$1,000 Restaurant Savings** incentive, and a **3-Day / 2-Night Las Vegas vacation incentive.**

And one of the biggest surprises is how affordable these incentives actually are — depending on the package and volume, certificates can cost roughly \$10 to \$30 each, and even less in bulk. The Las Vegas vacation incentive is designed to be simple and attractive: no timeshares, no presentations — just a relaxing experience.

These incentives create an emotional trigger that helps push people past hesitation and into action. And here's what makes it even more powerful: they don't just help experienced marketers close more deals — they help brand-new members build confidence early.

One of the biggest problems new people face is discouragement. They come in excited, then see others talking about making thousands right away, and realistically that doesn't happen overnight for most beginners. But when a new person can offer a valuable incentive to a prospect, it gives them an advantage. It creates urgency, increases follow-through, and helps them feel: "Okay... I can actually do this."

Instead of relying only on persuasion or experience, they have something tangible and exciting that adds real perceived value. These incentives can also help create monthly recurring revenue — if a customer signs up on a payment plan or membership, the incentive makes the first decision easier and increases follow-through. And the new customer can immediately turn around and use those same incentives to grow their own business.

At the end of the day, every business wants the same thing: more customers, more conversions, and more revenue. That's exactly what these incentives are designed to help accomplish.

DELIVERY NOTES

Slow down on the line “closing the sale” — let it land. Tell it as *your* story; the first-person voice is what makes it believable. Never read it like a script; read it like a memory.

SECTION 5 · THE AFFILIATE OPPORTUNITY

Inviting Others to Earn With You

The same script naturally opens a second door: recruiting affiliates who introduce these incentives to businesses. Here is how to present the opportunity honestly and attractively.

AFFILIATE INVITATION**COPY & PASTE**

We’re also looking for motivated people who’d like to introduce these incentive programs to businesses as affiliates.

This is a **1099 independent-contractor opportunity** that lets you work completely from home or anywhere you choose. There are no set schedules, no required hours, no boss, and no quotas. You can do it part-time for extra income, as a side hustle, or build it into something much larger over time — you grow at your own pace.

One of the best parts: when you bring on a business client and that business keeps placing orders, you can continue earning commissions from those repeat orders.

You don’t need previous sales, marketing, or technical experience to get started. You’re simply introducing businesses to a powerful tool that helps them make more money and close more deals.

If you’re interested in becoming an affiliate, visit **Sales Incentive Network**, send me a DM, or call me directly at 702-844-9326.

FREEDOM**Work anywhere**

No schedule, no boss, no quotas. Part-time or full scale.

RECURRING**Earn on reorders**

Repeat business orders keep paying you after the first sale.

LOW BARRIER**No experience needed**

You introduce a tool that helps businesses win. That’s the whole job.

KEEP IT HONEST

Be upfront that results take effort and that most beginners don't earn thousands overnight. The incentive program is a real advantage — not a lottery ticket. Setting that expectation builds the trust that keeps affiliates active for the long haul.

SECTION 6 · READY-TO-DEPLOY PROMOTIONS

Promo Copy You Can Post Today

SECTION 8 · SMS & VOICE

Texts & Voicemails That Feel Personal

SMS / text messages

Short, friendly, and never robotic. Keep links and the phone number consistent. Always give an easy opt-out.

SMS 1 · FIRST TOUCH (BUSINESS)**COPY & PASTE**

Hi! Quick one — do you ever get people interested in your offer but they hesitate to actually buy? We help businesses fix that with customer incentives (grocery + dining savings and a Vegas vacation incentive) that get more people to say yes. Happy to share how it works — want me to send details? – [Your name] · Reply STOP to opt out

SMS 2 · WARM FOLLOW-UP**COPY & PASTE**

Hey [Name], following up on the incentives idea. The certs run about \$10–\$30 each (less in bulk) and businesses use them to close more deals and run promos. Want me to text you a quick example for your business? No pressure either way!

SMS 3 · PROMOTION BLAST**COPY & PASTE**

Big one this week: donate/sign up and get a thank-you gift — \$1,000 grocery savings, \$1,000 dining, or a 3-day/2-night Vegas vacation incentive (no timeshares, no presentations). Limited spots — reply YES and I'll send your link. Reply STOP to opt out.

SMS 4 · REORDER NUDGE (CLIENT)**COPY & PASTE**

Hi [Name]! How are conversions looking since you started using the incentives? If they're moving, this is the perfect time to reload before your next promo. Want me to set up another batch?

Voice-drop / voicemail scripts

A voice drop lands straight in voicemail — no ringing, no interruption. The secret to a good one is sounding like a real person leaving a quick, friendly message, not a commercial. Read them at a relaxed pace, smile while you talk, and keep them under 30 seconds.

VOICE DROP 1 · BUSINESS INTRO (~25 SEC)**READ NATURALLY**

Hey, it's [Your name] — sorry I missed you. I'll keep this short. I work with businesses that get a lot of interest but lose people right at the moment they're supposed to buy. We've got a simple incentive program — grocery and dining savings, even a little Vegas vacation incentive — that gives folks a reason to say yes right away. A lot of coaches and local businesses are using it to close more deals. If you want to hear how it'd work for you, give me a call back at 702-844-9326. Again, that's [Your name], 702-844-9326. Talk soon!

VOICE DROP 2 · AFFILIATE INVITE (~25 SEC)**READ NATURALLY**

Hi, it's [Your name]. Quick message — I'm working with a program that lets people earn from home introducing businesses to a tool that helps them close more sales. No boss, no set hours, and you can do it around your own schedule. It does take effort, but it's a real opportunity, and you keep earning when your clients reorder. If that sounds interesting, call or text me back at 702-844-9326. Thanks — have a great day!

VOICE DROP 3 · PROMOTION REMINDER (~20 SEC)**READ NATURALLY**

Hey [Name], it's [Your name] — just a heads-up that the gift promotion is still open for a little while. When you take action this week, you can pick your thank-you gift: grocery savings, dining savings, or the Vegas vacation incentive. I didn't want you to miss it. Give me a quick call back at 702-844-9326 and I'll get you set up. Thanks!

COMPLIANCE REMINDER FOR TEXTS & VOICE DROPS

Only contact people who have opted in or with whom you have a prior relationship, honor STOP / opt-out requests immediately, and follow TCPA and your local calling/texting rules. A clean list protects your reputation and your business.

APPENDIX A

Objection Handling

Objections aren't rejection — they're requests for a little more confidence. Here are calm, honest answers to the five you'll hear most.

“How do I know this will actually increase my sales?”

YOUR ANSWER You won't know with certainty until you test it — which is exactly why most businesses start small, with 20–50 certificates, on the offers they're already running. You keep what works and scale it. The incentive simply gives hesitant buyers a reason to act now.

“Isn't this just a discount?”

YOUR ANSWER No — a discount cuts your price and your margin. An incentive adds perceived value on top of your full-price offer, so the customer feels they're getting more without you earning less.

“What's the catch with the Vegas trip?”

YOUR ANSWER There isn't one in the usual sense: no timeshare pitch and no presentation to sit through. It's a straightforward vacation incentive designed to be an attractive, low-friction thank-you.

“My customers are loyal — do I really need this?”

YOUR ANSWER Loyal customers still hesitate on timing. The incentive isn't about loyalty; it's about *now* instead of later. It shortens the gap between “interested” and “paid.”

“It sounds too cheap to be real value.”

YOUR ANSWER Affordable for you doesn't mean low value to the customer — everyday savings on groceries and dining are things people use and appreciate. That gap between your cost and their perceived value is precisely why the model works.

APPENDIX B

Responsible Claims & Selling Ethically

The fastest way to build a durable business is to be the agent people trust. That means selling the truth well — not stretching it. Please treat the following as non-negotiable.

- **✓ Frame results as possibilities, not promises.** “Up to 70%” and “as much as 85%” are ceilings the network has reported, not guarantees. Use words like “can help,” “designed to,” and “many businesses see.”
- **✓ Don’t promise income.** For affiliates, be clear that earnings depend on effort and results, and that most beginners do not earn large sums quickly.
- **✓ Describe incentives accurately.** State terms, restrictions, expiration, and redemption steps honestly. Never imply a certificate is worth more cash than it is.
- **✓ Honor opt-outs and contact rules.** Follow CAN-SPAM for email, TCPA for calls and texts, and any state rules. Keep clean, permission-based lists.
- **✓ Keep claims substantiated.** If you cite a result, be ready to back it up. When in doubt, soften the claim.
- **✓ Mind regulated niches.** Foreclosure, surplus recovery, credit, and funding have specific legal requirements — make sure any incentive use complies with the rules of that field and your state.

THE LONG-GAME PRINCIPLE

Every honest expectation you set today is a reorder you protect tomorrow. Under-promise, over-deliver, and let the results do the selling. Reputation compounds faster than any campaign.
