Foreclosure Recovery Inc.
Asset Recovery Administration Specialists

How These Calls Start

Every call in this book starts the same way. When you know how the person found us, it is easier to help them.

How a call starts, step by step

- 1. Facebook ad** We run a Facebook ad. It gives **free training** on how to find lost money called surplus. (Surplus is extra money left over.) The ad is why people call.
- 2. Free signup** People sign up for a **free account** at usforeclosureleads.com. They give us their name, phone, and email.
- 3. Quick follow-up** Right away, we send them an **email**. We also send a **voicemail** in Allie Pearson's voice. (We made a copy of her voice.)
- 4. Live show** They can watch our **live show** at usforeclosureleads.com/webcast/livefb. Most of the training is here.
- 5. The call** Sometimes the person **calls us**. Sometimes **Allie calls them back**. The questions below come from these calls.

What's Inside

Questions and Answers by Topic

What is surplus / how it works (4)

Q: What is the surplus? Where does the money come from?

"Is this a program where we do deals?"

A: Surplus is extra money left over. Here is how it works. Foreclosure is when someone loses their home because they did not pay. The home gets sold at a sale called an auction. Sometimes it sells for more than what is owed. Say they owed \$10,000 and it sold for \$100,000. The bank gets its \$10,000 back. The extra \$90,000 belongs to the old owner. That extra money is the surplus. We tell them the money is there. We get it back for them. They pay nothing up front. We only get paid after we get the money.

■ **Where this lives:** Also shown in the live webcast. Also on usforeclosurerecovery.com and in the welcome email.

Q: How does the surplus business work? What is the hardest part of making money in it?

"I have been an asset locator and worked surplus funds. I saw the fifty-fifty program."

A: Surplus is the extra money left over after a home sale. This business pays well if you can get the agreement signed. That agreement is called a contingency agreement. It means the person only pays if we win. The hard part is getting people to sign it. They will talk. They will give you info. But they will not sign. A day or two later they forget about it. We fixed that problem. So now we can move ahead and get the money.

■ **Where this lives:** Also shown in the live webcast and on the agent signup page at usforeclosureleads.com.

Q: My property sold for \$21,000. Is that the surplus? How much is owed to me?

"They said it sold for \$21,000. I was just looking."

A: Surplus is the extra money left over. The \$21,000 you saw is what was owed to the bank. The property sold for more than that. The difference is your surplus. We can send you the paperwork from the state that shows your surplus. In your case it is \$133,106.36. We have done this for years. The numbers come from the state and our lawyers.

■ **Where this lives:** Said in Allie's voicemail and the welcome email. The paperwork comes from state records.

Q: What if there is a lien on the property? Does it wipe out my surplus?

"What if there is a lien on the property?"

A: A lien is a debt tied to the property. There is no way they paid off everything and this is still left over. The surplus is what is left after the payoff. So it is your money. You have nothing to lose by looking at the state paperwork we send.

■ **Where this lives:** Agent training only. Not on the website yet. Covers handling worries about liens.

What the agent actually does (1)

Q: What is my job? Do I just talk to people, or do I do the paperwork?

"So we just do that part, then pass it on for the rest?"

A: Your only job is to call people. Build a good bond with them. Tell them they have money waiting. Then get them to sign the agreement. That agreement is called a contingency agreement. It means they only pay if we win. We do everything else. We do all the paperwork. We do the notaries, the lawyers, and the mail. You do not need to know a lot. You just need to talk to people and earn their trust. Once they sign, your part is done. We take over the case.

■ **Where this lives:** Also in the live webcast and closing training. Also in the welcome email and Allie's voicemail.

How agents get paid / commission (5)

Q: How much does the agent make on a deal?

"What is your cut of the surplus?"

A: We take 30% of the surplus. Surplus is the extra money left over. We split that 30% in half. The agent gets 15%. The company gets 15%. The rest goes to the old owner. Say the surplus is \$90,000. The agent makes \$15,000. We make \$15,000. The owner keeps \$60,000. Some states let us take up to 40%. We usually stay at 30%. We would rather have 30% of something than 40% of nothing.

■ **Where this lives:** Also shown in the live webcast and closing training. The 30% is in the agreement and the welcome email.

Q: How does your price compare to other companies?

"Most people charge a lot more. They charge \$180 to \$350 a month."

A: We are the cheapest way in. Most companies charge \$1,500 to \$2,000 to start. Some charge \$2,000 to \$3,000. On top of that they charge \$180 to \$350 a month for software. We charge \$995 one time. We have no monthly fees. We give you the software and back office for free. That software costs about \$180 a month at other places. We can do this because we are big and we built our own tools. So we do not pay other companies.

■ **Where this lives:** Price compare on usforeclosureleads.com. An agent talking point. Also in the live webcast.

Q: How does the split work? If I charge the client 30 to 40%, how is it split with the company?

"If we charge 30%, we split that with the company since you give the leads and support, right?"

A: Whatever you charge gets split with the company. It does not matter if you get them at 30, 35, or 40%. We split it because we give the leads, the back-end support, the lawyers, and the notary. All you do is build the bond and get the agreement signed. The normal deal is a 50/50 split, after the client takes their share.

■ **Where this lives:** Also on the agent signup page at usforeclosureleads.com.

Q: Are there different agent levels, like an asset recovery agent at 5 to 6%?

"I saw an asset recovery agent at five or six percent."

A: Yes. There are different levels. The website was just updated this morning with more detail. Go back and read it. Write down any questions. Agents move up from the first level as they grow and close deals.

■ **Where this lives:** Also on the agent signup page at usforeclosureleads.com.

Q: After a claim pays out, does the money go to the company first? How fast do I get my cut?

"It all goes to the company and you pay us out, right?"

A: Yes. The money comes to the company. Then we pay your share in three to five days. The check has to clear the bank first. Most of the time it pays within about 72 hours. We have never seen it take longer than three days.

■ **Where this lives:** Agent training only. Not on the website yet.

Getting started / signup (9)

Q: What does it cost to start? Is there a monthly fee?

"What will it cost to get into this business?"

A: It costs \$995 one time to start as an asset recovery agent, or three payments of \$331. There are no monthly fees. There is no CRM fee. A CRM is the software you use to track your clients. There is no credit check. You can start working and earning after the first payment. If you need to, the rest can come out of the money you collect.

■ **Where this lives:** On the free signup page at usforeclosureleads.com. Also in the welcome email. Asset recovery agent tier.

Q: What is the next step after I sign up?

"Will I hear from Corey? What is my next step?"

A: Sign up on the website. Once your signup comes in, we switch your account to the operator program. That unlocks the training videos and files. Then Corey calls you to get you set up and moving. After that we get you leads. First you go through enough training so we feel good about it.

■ **Where this lives:** Agent signup is on usforeclosureleads.com. Corey handles your first call.

Q: Is the start fee one time or monthly?

"The \$995 one, you pay that once, right? No monthly fee?"

A: The start fee is \$995 one time, or three payments of \$331. On the call it was called the intro offer. There is no monthly fee after that. Our fees are low because we own a lot of the linked companies, like Sales Incentive Network.

■ **Where this lives:** On the agent signup page at usforeclosureleads.com. Scroll near the bottom for the payment part.

Q: What is the white label, or owner operator, program?

"You also have the white label program, which is your own business."

A: The white label program is your own business. We build the whole website. It is a copy of ours, kept apart from us. We do all the back-end work. We give you leads. We give you closers. You get your own brand. You still use our back office and our leads.

■ **Where this lives:** On the agent signup page at usforeclosureleads.com (owner operator part).

Q: What tools do I get? Phone number, email, landing page?

"You get an 800 number, an extension, a landing page, and an email, right?"

A: Yes. You get an 800 number with an extension. You get a pro work email. Using Gmail or Yahoo, with no 800 number, looks unprofessional. You also get your own web page so a claimant can see who you are and what you look like, like usforeclosurerecovery.com/charles. On top of that, you get an AI avatar that can do outreach for you. You get another way to reach us too, with text apps and email, when the phones are busy. The web page and avatar are optional. You do not have to use them.

■ **Where this lives:** Also on the agent signup page at usforeclosureleads.com.

Q: What are the levels? How do I go from watching videos to an asset recovery agent to an owner operator?

"There is one level where you watch the videos, then go to asset recovery agent, then full fifty-fifty."

A: Everyone starts on the agent signup page for \$995, or three payments of \$331. That is the intro way in we talked about on this call. As you grow and close your first deal, you put some of your earnings back in. Then you can do upgrades. You can even get a copy of our website to run your own business apart from us as an owner operator. You still use our back office and get our leads. We handle the back office for all agents.

■ **Where this lives:** On the agent signup page at usforeclosureleads.com.

Q: With the \$995 start, do I get a website I can use? What is included?

"With the \$995 start, do you give me a website I can use? Can I use yours?"

A: Yes. The \$995 start gives you support. It gives you leads. It gives you a 50/50 split, after the client takes their share. It also gives you the incentives you can offer claimants, a complimentary Las Vegas trip, \$1,000 in grocery savings, or \$1,000 in restaurant savings. They are incentives, not gifts. You can use our website to start. The incentives come through Sales Incentive Network, which we own.

■ **Where this lives:** On the agent signup page at usforeclosureleads.com (payment part near the bottom).

Q: Do agents get a company email to talk to clients?

"Do you give people who sign up an email with your company?"

A: Yes. You stand for US Foreclosure Recovery. That is the client side. US Foreclosure Leads is the side that finds new agents. You get a work email like yourname@usforeclosurerecovery.com. The company's claim@usforeclosurerecovery.com handles new claims. The email already says what we do. It looks very professional. It has your name, phone, and contact info. Mail to your work email also lands in your own inbox. So you know to log in and reply from the work email. Never reply from Gmail.

■ **Where this lives:** Agent training only. Not on the website yet. Covers work email setup and forwarding.

Q: I am not sure which site to sign up on. Where do I actually sign up?

"I am trying to find where I actually sign up."

A: Go to usforeclosureleads.com. That is where asset recovery agents sign up, and where all the free training lives. At the top, under our email, there is an agent sign up link. Click it. It is a long page. Scroll almost all the way to the bottom. That is where the payment part is. Most of the page is about owner operator website and business options. But the \$995 deal gives you support, leads, the 50/50 split, and the incentives. Claimants are the ones who sign up on usforeclosurerecovery.com, the client side.

■ **Where this lives:** Agents sign up at usforeclosureleads.com, where the free training lives. Claimants sign up on usforeclosurerecovery.com, the client side.

Webcast & training (4)

Q: I am new. Do you have training? Where do I find it?

"Did you get to go in and see the free training?"

A: Yes. We have a great program for new people. The training is free. Once your account is set to the asset recovery agent program, you get all the training videos and files. There are helper files under each closing video. You can download them to your phone. The dashboard works on your phone too. So you can learn and work from anywhere. We are here seven days a week if you have questions.

■ **Where this lives:** Free training is in the live webcast plus the closing videos. You get the videos in the dashboard after you sign up at usforeclosureleads.com.

Q: How do I unlock the rest of the free training videos?

"Add your phone number in your account to unlock the rest of the free videos."

A: Go to the My Account part of your dashboard. Add your phone number there. That unlocks the rest of the free closing videos. There are also helper files under each video. You can use those right now. If you upgrade later, you get the rest of the videos and all the files.

■ **Where this lives:** On the signup page and dashboard at usforeclosureleads.com. You must add a phone to unlock free videos.

Q: How often is training? Is it all prerecorded?

"How often is training? Is it all in the system and prerecorded?"

A: Training is six short prerecorded videos. They are short because we do the hard work for you. We do the voicemails, the videos, the incentives, and the letters. You only handle the bond and the signing. You do not do the back-office work. We take care of printing and mailing all the certified mail. When you click the certified mail button in your My Leads tab on the dashboard, it prints out in our offices and we handle it. We also give you a tracking number. We take care of the attorney fees, the notaries, and all of the incentive costs to help you close your contingency agreements. So you do not need to know much. After training, you can do a practice call with us. That helps you feel calm on the phone.

■ **Where this lives:** Training videos are in the back office dashboard after signup. Also in the webcast.

Q: What files and guides do I get after I sign up?

"I will give you all the files we give our owner operators."

A: After signup we set your account as an owner operator. So you get all the training videos. You get all the files under each video too. That includes guides on dead owners, business properties, and tricky cases. It includes PDF books we have made. It includes lists of all U.S. states with contact info. When a file has more than one version, like v4, v5, or v6, just grab the newest one with the same title.

■ **Where this lives:** Files are in the back office dashboard after signup.

Contracts & contingency (9)

Q: Do I have to pay the whole fee before I can work?

"Once I get it all paid, will I be working with you?"

A: No. You do not have to pay it all first. You can start working after your first payment. Then you can pay the rest from the money you make on your deals.

■ **Where this lives:** Also in the welcome email and on the signup page. Confirmed by the agent.

Q: Who pays for the incentive? Is it paid up front?

"Do you pay for the incentives up front?"

A: No. The incentive is not paid up front. We cover the incentive costs because we own Sales Incentive Network. You only pay attention to getting the signature. The claimant picks one of three: a complimentary Las Vegas trip for two nights and three days, \$1,000 in grocery savings, or \$1,000 in restaurant savings. You do not give the incentive until they sign. The Las Vegas trip is complimentary, so the person may still pay small fees like hotel tax, maybe \$100 to \$200. Any cost we have comes out of our side, not theirs. So they keep most of the money.

■ **Where this lives:** The incentive program runs through Sales Incentive Network, which we own. Agent training only. Not on the website yet.

Q: How does the person sign the papers? What about getting them notarized?

"Can they sign it from their phone in one click? Or do they have to print and sign by hand?"

A: Right now we send letters in the mail. The person signs by hand. Then they take a photo and email it back. We are also adding DocuSign. That lets them sign on their phone. It comes with a remote notary too. A notary is a person who checks an ID and watches you sign. So the whole thing can be done on the phone and still hold up in court. We want to make it easy. We have backup ways to sign too. For owner operators, say you already use a tool like [Notarize.com](https://notarize.com). We can link it right into your dashboard. Then you never have to leave the dashboard.

■ **Where this lives:** Agent and owner operator training only. DocuSign and notary are being added. Not on the website yet.

Q: How do you get lawyers to file the cases, like for mortgage foreclosures?

"What website do owner operators use to reach the network of lawyers?"

A: We reach out to lawyers. We have them sign an agreement too. We use our sister company My Trust Software (mytrustsoftware.com) to contact them. So it looks like a third party finding a lawyer for a case, not a sales pitch. We work with newer lawyers. We work with people who just passed the bar. We work with local lawyers we know. They are willing to get paid only if we win. Your work email has templates for reaching out to lawyers and investigators. We do not pay out a thing until it is all lined up. Our brand and history help us look real to lawyers.

■ **Where this lives:** Lawyer outreach runs through mytrustsoftware.com. Templates are in your work email. Agent and owner operator training only.

Q: What are the contingency incentives? How do they help me close?

"Is there something I can give the homeowner to get them to sign?"

A: Yes. We have a program called contingency incentives. You can hand the homeowner a complimentary incentive when you reach out. They pick one of three: a complimentary Las Vegas trip for two nights and three days, \$1,000 in grocery savings, or \$1,000 in restaurant savings. It costs them nothing. The incentive gives them a reason to sign the contingency agreement now, not later. People sign faster when there is a complimentary incentive on the table. So you close more deals. These are incentives, not gifts.

■ **Where this lives:** Contingency Incentives page: usforeclosureleads.com/dashboard/contingency-incentives. The incentives come from Sales Incentive Network, which we own.

Q: Where do I get the incentive to give the homeowner?

"How do I get the incentive to send them?"

A: Go to the Contingency Incentives page in your dashboard. From there you sign up with our partner, Sales Incentive Network. You get complimentary certificate credits to start. Then you get your own incentive link. Drop that link in your text, your email, or your voice drop. So the homeowner sees the complimentary incentive right when you reach out. There is also a free playbook on that page that shows you the scripts that close.

■ **Where this lives:** Sign up at usforeclosureleads.com/dashboard/contingency-incentives. Links go in SMS, email, and voice drops. Agent and owner operator training.

Q: How do I keep the incentives free? Do I pay out of pocket?

"Do these incentives cost me anything?"

A: You do not pay out of pocket when you do it right. The incentive is only unlocked for a person who has a signed contingency agreement. And that person must be one of your own leads. So you get the signature first. Then you upload a clear photo of the signed agreement to your My Account page. That photo unlocks the incentive for that homeowner. No signed agreement means no incentive. That rule keeps the program complimentary for you.

■ **Where this lives:** Rules on usforeclosureleads.com/dashboard/contingency-incentives. Upload each signed agreement to My Account to unlock the incentive.

Q: Am I locked in? Or can I still work other programs and my own business?

"I was an insurance agent and they made me captive. I could not work for anyone else."

A: You are not locked in. This is your own business. You use our info and you are one of our agents. But you can work with anyone you want. We are too busy to box you in. If you have the skills and the chance, use them.

■ **Where this lives:** Agent training only. Not on the website yet.

Q: What is a fair percentage? What if a client pushes back on it?

"Sometimes you charge 35% or whatever it is."

A: If a client is stuck on the percentage, do what you must to close the deal. Even 10% is better than 0%. The main goal is to close the deal. The exact percentage can change based on the case.

■ **Where this lives:** Agent training only. Not on the website yet. Covers handling pushback on price.

Skip tracing & leads (9)

Q: Do you give me the leads? Are they safe to call?

"Do you give me leads?"

A: Yes. We give you all your leads. Each one is safe to call. We check every number against the Do Not Call list. That list holds people who do not want sales calls. We must check it. If we miss it, the company could get a \$10,000 fine. So we do all of that for you. Each lead comes with the phone number and the info. You just build the bond and close the deal. We do the back-end work.

■ **Where this lives:** Also in the live webcast. Lead checking is done for you. Also in the welcome email.

Q: Where do your leads come from? Is this market too crowded?

"Is this market getting too crowded?"

A: Most companies just hand out state leads. That is why it can feel crowded. We pull from extra sources too. Our tech team built them with AI. We keep them private so no one takes them. It is not really too crowded. Thousands of foreclosures happen every day in this country. A foreclosure is when someone loses their home because they did not pay. In a down market there are even more people to help. We have thousands of leads right now. That is why we are running ads. Here is the key. The state sends only one notice to the old home. If no one claims the money in time, the state keeps it.

■ **Where this lives:** Also in the live webcast. We say state, not the local office. Lead sourcing is agent training only. Not on the website yet.

Q: Are my leads just mine? Or do other agents get them too?

"Are the leads only mine? Do they go to anyone else?"

A: Your leads are only yours. We never share leads. If you do not work them, no one does. The incentives help us prove this. When someone redeems an incentive, their name must match a lead in your dashboard. That way we know it was your lead.

■ **Where this lives:** Also in the live webcast. Your-leads-only is a core rule. Covered in onboarding and the owner operator program.

Q: What do you do when you cannot find a person's contact info?

"What do you do when you cannot get any contact info back on a lead?"

A: Finding a person's phone number and address is called skip tracing. We never give you a lead unless we have at least one good way to reach them. That means a phone number and an email at the least. No phone and email? Then it is not a lead. It does not go into your fresh leads. On our side, we sort leads into groups. We keep skip tracing through many sources. For a big claim worth chasing, we spend more. We may put about 10% of a past claim back into finding the person. We may hire an investigator. We may use BeenVerified. We may even send someone to knock on the door. So by the time you get a lead, you can reach them. The only question is how you handle the call.

■ **Where this lives:** Agent and owner operator training only. Not on the website yet. Skip tracing is done for you.

Q: Are the leads tax deed and mortgage foreclosures? What states do they come from?

"Are these both tax deed and mortgage foreclosures? Do you pull from most states?"

A: We have both kinds. There is a Tax Deeds tab in the business suite. We send auto emails and records requests to all 3,142 areas in the country. We made a 2026 book that lists them all with contact info. Paid members get that book. Some areas have no surplus office. Some give the money back right away. Some charge for their lists. Paid lists are often the best leads. Fewer people grab them. We start tracking at the auction. We follow the lead until the deed changes. That way we have both the old and new address.

■ **Where this lives:** Tax Deeds tab in the dashboard. The 3,142-area book is for paid members. We say state, not the local office.

Q: Can I bring my own leads from other places while I use your system?

"I also have other places where I get leads."

A: Yes. Feel free to use your own leads. We also give you all your leads. We check each one against the Do Not Call list. That list holds people who do not want sales calls. Our leads come with phone numbers and clean info, ready to go. We keep our leads good. We also run ads in the background, like texts, voicemails, and emails.

■ **Where this lives:** Agent training only. Not on the website yet.

Q: If an agent holds leads for months and does not close, do those leads get given away?

"If they hold leads for three or four months and cannot close, do the leads get rotated?"

A: We do not rotate leads. A lead we give you is never given to someone else. It does not matter if you close it or not. A lot of companies rotate leads right now. We do not. We have so many ways to get fresh leads that we just go after new ones.

■ **Where this lives:** Agent training only. Not on the website yet. Also in the webcast on your-leads-only.

Q: If I cannot close a lead, can a senior agent step in to help?

"You have closers who can come in, like a third party?"

A: Yes. When you feel you cannot close it, or you are losing it, you can have a senior agent call the client back. They will answer questions and close it. They can use the incentives to help, the \$1,000 in grocery savings, the \$1,000 in restaurant savings, and the complimentary two-night, three-day Las Vegas trip. Those are incentives, not a gift. You do not lose the lead. We help you finish it.

■ **Where this lives:** Agent training only. Not on the website yet.

Q: Are leads truly just mine? Not shared with anyone else?

"You said the leads would not go to anyone else?"

A: Right. We never share leads.

■ **Where this lives:** Also in the webcast and on the agent signup page. Your-leads-only is a core rule.

Time commitment (5)

Q: Can I do this part time around my full-time job?

"I want to do this part time at first."

A: Yes. Most people do this part time. They work at night or on weekends. You pick your own hours. A lot of people quit their job after about 60 days. They make as much here as they made in a whole month at work. It only takes an hour or two a day to follow up with your leads.

■ **Where this lives:** Also in the live webcast and the welcome email. An agent talking point.

Q: Is support open on weekends? When can I reach you?

"Do you have support on Saturday and Sunday?"

A: Yes. You can call us any day as an agent, even on weekends. We are open seven days a week, nine to five Pacific time. You also get another way to reach us. So if you are closing a deal and want us on the line, we can help.

■ **Where this lives:** Agent training only. Not on the website yet.

Q: What does a normal week look like once I am working leads?

"When I start working the leads you give me, I start hitting buttons?"

A: You get up to 125 leads at the start of the week. You work them. You can do extra skip tracing yourself. Skip tracing means finding a person's phone and address. From the dashboard, you hit buttons to send texts, emails, and voicemails. You see each one before it sends. So you can fix a name or add notes. Set a real pace and reach out to a good batch each day. Then you follow up on past weeks. So you always have a few hundred leads to follow up on. Keep following up. Someone gives in.

■ **Where this lives:** Agent training only. Not on the website yet. Covers the weekly routine.

Q: What happens if an agreement is not signed within 30 days?

"If an agreement is not signed within 30 days, you do a full review?"

A: We do a check on your work at about the two-week mark. We do a full review if an agreement is not signed within 30 days. We look at your sent emails. We see exactly what you are doing. Then we help you get better. Your win is our win.

■ **Where this lives:** Agent training only. Not on the website yet. Covers how often we review your work.

Q: How easy are you to reach? What are your hours?

"After 5 PM Pacific you are off, but nine to five you are all business?"

A: We are open nine to five Pacific time, seven days a week. We are glad to take time to help you close or fix anything, like an email problem. After 5 PM Pacific we are off. But when a new agent is making a payment, we stay open a couple extra hours, until about 7 PM Pacific. That way they can log in and ask questions. You also get a private cell phone number for a senior recovery agent to help you along the way.

■ **Where this lives:** Agent training only. Not on the website yet.

Legitimacy & trust (7)

Q: A lot of people think this is a scam. How do you fix that?

"People think this is a scam. They say there is no way they have that money."

A: The hardest part is getting people to believe it is real. We do not ask for any money up front. So they get nervous. To help, we give them a real incentive when they sign. They can pick one of three: a complimentary Las Vegas trip for two nights and three days, \$1,000 in grocery savings, or \$1,000 in restaurant savings. People think a scam would not give them a real incentive like that. That has pushed our close rate up about 70%. We are a national brand. We have been around for years. Agents use our work email and our 800 number. It is all built on trust.

■ **Where this lives:** Also in the live webcast and closing training. The incentive program is salesincentivenetwork.com, which we own. An agent talking point.

Q: How long have you been around? Who runs the company?

"How long have you been in business?"

A: We have been doing this about six to eight years. Allie Pearson and Corey Pearson own and run the company. Corey runs the tech side. Allie works with the agents. We own a few related companies too. They are the incentive program (Sales Incentive Network), Start My Business Inc., and My Trust Software.

■ **Where this lives:** On usforeclosurerecovery.com (team photo) and startmybusiness.us. The company is Foreclosure Recovery Inc. Also in the welcome email.

Q: Why does this field feel like a scam? How are you different?

"This has a really bad, scammy feeling. People do not trust people."

A: People have been scammed so much they trust no one. We built a whole company around the service. We want the client to feel good. We do the back-end work no one else does. We send voicemails with video, so they see who is calling. We send texts. After the sale, we mail them a letter with all the info. We do not ask for any money up front. A scammer will not spend a dime on you or give you anything complimentary. So our incentive perks help people feel safe, because who would give out incentives like that if they were a scammer? On top of that, the reason we can give these incentives is that we also own Sales Incentive Network, which is owned by our company Start My Business Inc. at startmybusiness.us.

■ **Where this lives:** Also shown in the live webcast.

Q: Why does it matter to check the Do Not Call list? What happens if leads are not checked?

"If you call a number on the no-call list and you are not allowed to, that is a \$10,000 fine."

A: The Do Not Call list holds people who do not want sales calls. Call someone on that list when you are not allowed to, and it is a \$10,000 fine per number. A lot of people wrongly think they can call anybody. That is why we never give out a lead we have not checked. It could fall back on us.

■ **Where this lives:** Also shown in the live webcast. Also in agent onboarding.

Q: Why do most programs just sell a course instead of doing the real work?

"I had a bad time with one person who just sold me a course. They charged more for support than the course."

A: Most people, even the big names, sell courses. It is way easier than doing the real work and handling claims. Our program is more hands-on. The more people in our system, the more we learn. The better deals we close. We do not focus on selling courses. We focus on handling claims and getting checks cashed.

■ **Where this lives:** Also shown in the live webcast.

Q: I am good at finding people but bad at closing. How do you help, since the closings I saw online looked fake?

"I know how to find people, but I am not good at closing. The closings I saw looked staged."

A: People do not close because the client cannot see a face or feel a bond. You are just a stranger online. We fix that. We use a video and a copy of you as an agent. With your okay, we copy your look and your voice. Then your digital agent shows up in texts, emails, and voicemails. Those link to a page that introduces you to the client. There is also a page where Corey and Allie say our agents are real and working the legal way. Every contact looks clean and the same. So the client knows you and trusts you.

■ **Where this lives:** Agent training only. Not on the website yet. Covers voice copy and the landing page system.

Q: Clients ask how they know this is not a scam. How do you handle that?

"How do I know this is not a scam?"

A: We tell people that if this were a scam, we would be asking you for money. We are not asking for money. We do not need any. So there is nothing to scam you out of. On top of that, every step is proven. There is a green check mark on the website. You can see the faces of the people behind the company. We mail certified letters for the client with a tracking number they can follow. There is a real paper agreement. We also reach out more than once. We contact neighbors and family, often the younger ones who are good online. That way a trusted family member can confirm we are real. We also give away incentives that are very high in value, and the claimant does not pay a thing for them. We do that while never asking the homeowner for any money. That alone helps push our closing rate up to about 70%.

■ **Where this lives:** Also shown in the live webcast. Scripts and papers come in agent onboarding.

Misc (20)

Q: Do you give me an 800 number, a work email, and a pro setup?

"You give me an 800 number and an email with your info, right?"

A: Yes. We give you an 800 number with your own extension. We give you a pro work email, not a Gmail. We give you your own page. So it looks like you work for a big company. We record your voice. With your okay, we use a photo too. Then we can send voicemails, texts, and emails that meet people before you even call. We also give you the back office software. You use it to track each client and see where they are.

■ **Where this lives:** Also in the live webcast and welcome email. The voice and avatar setup is in the My AI Agent dashboard tab.

Q: What is the AI agent or avatar tool? How does it help me close?

"Look at the tab on the left that says My AI Agent."

A: Your dashboard has a tab called My AI Agent. You upload a couple of photos there. You record your voice for about a minute. Then we copy your voice. We build you a personal page, like usforeclosurerecovery.com/charles. When your My AI Avatar sends an SMS, the message shows an image of you with a play button. When the claimant clicks it, they go to your agent introduction page. They see a card that shows you work for Foreclosure Recovery Inc. and want to get their money back. This adds a real, human touch. It lifts your close rate. By the time they talk to you, they have heard your real voice and seen who you are. This is optional. You are not required to use it.

■ **Where this lives:** The My AI Agent tab in the dashboard. Each agent page lives at usforeclosurerecovery.com/<name>, like usforeclosurerecovery.com/charles. An optional agent feature.

Q: How do the letters, emails, texts, and voicemails work in the dashboard?

"Can all those documents be signed from the dashboard?"

A: Open your leads dashboard. Click a lead's email. An email draft opens. It can be in English, Spanish, or both. It uses our pro template. It is filled in with the person's info, your intro, and your 800 extension. The signed agreement is already attached. You check it, then hit send. You can send it from the dashboard or your work email. Click the phone number to see the text template. Each lead also has a voicemail button. When we have both the old and new address, a letter button shows up. It prints the letter on our printers. We mail the certified letters from our offices for you. We send you the tracking number so you can follow up.

■ **Where this lives:** Dashboard feature. Agent training only. Not on the website yet.

Q: What is the owner operator program? What does it cost?

"What does the full white label company package cost?"

A: The owner operator program is for people who want to own their own company like ours. It is a white label setup. You get a clone of our website and dashboard, kept under your own brand. You can hire your own asset recovery agents and keep 100% of the commissions from all of your cases. We still build the back end and run the infrastructure. This is usually recommended after you have closed a few cases as an asset recovery agent, or for experienced agents who already know the business and just want the infrastructure and a professional, claimant-facing website that carries the trust our company has in this market. The price listed now is being updated. Going forward it will most likely be more than \$9,995.

■ **Where this lives:** Owner operator section on usforeclosureleads.com with a link to startmybusiness.us. The build-out is done by Start My Business Inc.

Q: Can I use an assistant to make the calls? Do you train them?

"Do any of your agents use assistants to make the calls?"

A: Yes. Our agents use assistants. We can set that up for you. These are virtual assistants, or VAs. A VA helps you online from far away. Corey handles the tech setup. We use a lot of AI. We have about 15 VAs already trained on our system. The VA can make the calls. You step in to close. You can pick a man or a woman. You pay the VA directly. We can also copy your voice. Then the VA's calls and voicemails sound like you.

■ **Where this lives:** Agent and owner operator training only. VA setup is done by Corey. Not on the website yet.

Q: Can I call right from the system? How does the 800 number work?

"Where does the 800 number with the extension lead when someone calls it?"

A: You make your calls from your own cell phone. You call the number shown in the back office. When a person calls our 800 number, they enter your extension. Then the call goes right to the cell phone you picked. For owner operators, we buy an 800 number and set it up. Want AI to answer all your calls with a pro menu? People can say support, compliance, claim, or an agent's name. That costs \$100 a month. We set the whole thing up.

■ **Where this lives:** Agent and owner operator training only. 800 number setup and AI phone menu. Not on the website yet.

Q: What is mystatefunds.com? Is that where claims get sent?

"Is mystatefunds.com where all the claims are sent?"

A: No. [MyStateFunds.com](https://mystatefunds.com) is a separate lost-and-found money site. Our claims are run through your USFR dashboard. You send messages to people from the dashboard. The signed agreements go under your My Account tab. Then we send the incentives and run the case. MyStateFunds is just a different tool. It is not where surplus claims get filed.

■ **Where this lives:** Clears up which site does what. mystatefunds.com is for general lost money, not claims. Agent training only. Not on the website yet.

Q: Can you connect the tools I already use? Or do I have to switch?

"I want to make sure I do not have to switch everything to try this."

A: The whole point is you will not need other tools or pay many companies. For tools you do keep, like [Notarize.com](https://notarize.com), we pull them right into your dashboard. So you do everything from your own site. You never have to step outside it. We built our own software and servers. So we do not pay monthly fees to others. We pass that savings to you. We charge bottom dollar. We send updates every week at no extra cost.

■ **Where this lives:** Owner operator value point. Tool linking is agent and owner operator training only. Not on the website yet.

Q: How big is a normal deal? What can I make per case?

"Deals range from about \$10,000 up. My biggest is \$5,000 from a \$100,000 sale."

A: Surplus is the extra money left over. Most deals run about \$10,000 to \$100,000 in surplus. A lot land in the \$20,000 to \$50,000 range. Some deals take two or three months to close. Your job is to get the agreement signed. Keep filling your list of leads. It may take ten or twenty calls before one really sticks. About 80% of people who start do not make it. They get distracted. So being steady is your real edge.

■ **Where this lives:** Sets agent expectations. Also in the live webcast and onboarding.

Q: Where are you located? Does everyone work from home?

"Where are you based?"

A: We are based in Las Vegas. Everyone works from home. Agents can work from anywhere. We are even opening it up to other countries, like the UK, Mexico, and Canada. This work can be done from anywhere.

■ **Where this lives:** Company background. Also in onboarding and on the website.

Q: What kind of support do you give? Even for people who need quick answers?

"Other companies do not do the back-end work or talk to you."

A: We give a lot of support. We are here seven days a week. Weekends are lighter for family time. People say other companies do not do the back-end work or talk to them. We give you private numbers. So you can always reach us. A senior agent can even jump on while you talk to a client. We want your ideas too. We add new dashboard features based on what you ask for.

■ **Where this lives:** How support works. Reach support@usforeclosureleads.com or claim@usforeclosurerecovery.com. Also in the welcome email.

Q: What incentive do you give to get the agreement signed?

"I saw the fifty-fifty program."

A: When a client signs the agreement on the phone, we give them an incentive. They pick one of three: two nights and three days in Las Vegas at a hotel-casino, complimentary; \$1,000 in grocery savings; or \$1,000 in restaurant savings. It makes people excited right then. That gets the agreement signed. Then we can move ahead. We can give this away because we own Sales Incentive Network. It is an incentive, not a gift.

■ **Where this lives:** Also shown in the live webcast. Incentives come through Sales Incentive Network, which we own.

Q: Is this a good fit for retirees or stay-at-home people on a fixed income?

"This seems good for people who are retired or stay at home."

A: Yes. We have retirees and stay-at-home people doing it. Some people cannot show income. They may be on a fixed income, food stamps, or benefit limits. We show them how to set up a business. We own a company called SMB that helps with this. Then the state pays a business with an EIN. An EIN is a tax ID number for a business. So the state does not pay them on their Social Security number. That helps with taxes and benefits.

■ **Where this lives:** Agent training only. Not on the website yet. Start My Business (SMB) is a company we own.

Q: Do you do state funds too, or just foreclosure surplus?

"You have My State Funds. Is that the same thing? Do you do state funds?"

A: Yes. We do state funds too. State funds are not as popular yet. The dollar amounts are smaller. But they are simpler. Clients believe them more easily. You just have to work harder at them. Some people also find life insurance for clients. That can pay as much as surplus funds.

■ **Where this lives:** Agent training only. Not on the website yet. My State Funds is a brand we own.

Q: Can my family or friends help me make calls in the system?

"Can my son, wife, or a friend help me make calls in the system? No rules against that?"

A: No rules against it. You buy the platform. You own the system and your book of business. Your son, wife, or a friend can help you make the calls in the system.

■ **Where this lives:** Agent training only. Not on the website yet.

Q: If a dead owner has many heirs, do you give a claim to each one?

"If someone passed away and has 10 or 15 heirs, do you give it to each one?"

A: Yes. We help all the heirs. That is normal. For new agents, we steer away from cases with a dead owner. They take longer. We want to keep your spirits up. So we start new agents on the easy leads. As you get calm on the phone, you can pick those harder cases yourself.

■ **Where this lives:** Agent training only. Not on the website yet.

Q: Which states do you cover? Just where you are based?

"You said you are in Las Vegas?"

A: We are based in Las Vegas. But we work all the states we are allowed to work in. Vegas is just our home base. We handle recovery all across the country.

■ **Where this lives:** Also on the agent signup page at usforeclosureleads.com.

Q: Why are some states, like Florida, listed as ones to stay away from?

"I saw you listed some states to stay away from, like Florida."

A: We say that because we mostly start new people. It is already an uphill climb. So we tell new agents to start in easy states. Those are non-judicial states, like the Carolinas and others we list. They are easier and faster. The goal is to get your first close fast. It is not that you cannot work the other states. It is just about getting a quick first win.

■ **Where this lives:** Also on the agent signup page and the suggested-states list.

Q: Are calls recorded? Why?

"When you forward your 800 number to my phone, are the calls recorded?"

A: Yes. Calls are recorded. We may get you your own 800 number. Or we may forward our 800 number to your phone. Either way, calls are recorded. We do this so we can hear what happened. We hear the questions and the pushback. We learn from them. It helps that one client. It also helps us spot patterns, like a new law or a state change. That helps every agent. Being open in all calls matters a lot.

■ **Where this lives:** Agent training only. Not on the website yet.

Q: What happens with the letter and agreement? How is it sent?

"They get certified mail when you click print?"

A: Skip tracing means finding a person's phone and address. In the back office, when we find a current address apart from the old home, a print button shows up. You click it. It prints on our printers. Then we mail the signed agreement for you. After that you follow up by text, voicemail, or call. You tell the client a tracking number was sent. So they can view the agreement even with no printer. We handle the mailing for you.

■ **Where this lives:** Agent training only. Not on the website yet. Covers the back-office print and mail steps.

One More Way to Earn: Incentive Agents Wanted

Here is one more way to earn. We are also bringing on agents for our incentive company, **Sales Incentive Network**. That is the side that gives the incentives away. Your job is simple. You sign up businesses so they can use the incentives too. We open this to almost any business, online or in person.

Agents have done really well with it. They are making sales and real money. And it fits almost anyone. If you want money coming in every week while your surplus deals close, this helps. Sales incentives pay out weekly, and it costs nothing to get started.

Fundraisers have been a big hit. Groups use the incentives to raise money fast.

Who you sign up: coaches, digital marketers, and big companies with upfront costs. Car dealerships, schools, sports leagues, churches, missions, and school trips. Furniture stores, credit repair shops, and companies that need funding. Raffles and drawings. Dog rescues, domestic abuse shelters, and homeless shelters. The list keeps going.

Ready to start? Go to salesincentivenetwork.com. Once you log in, you will see the **Affiliate Hub** along with the videos. They walk you through all of it.
